STRATEGIES **THAT** RETURNS

FOR THIS RESTRO WE USE **WIN-BACK STRATEGY**

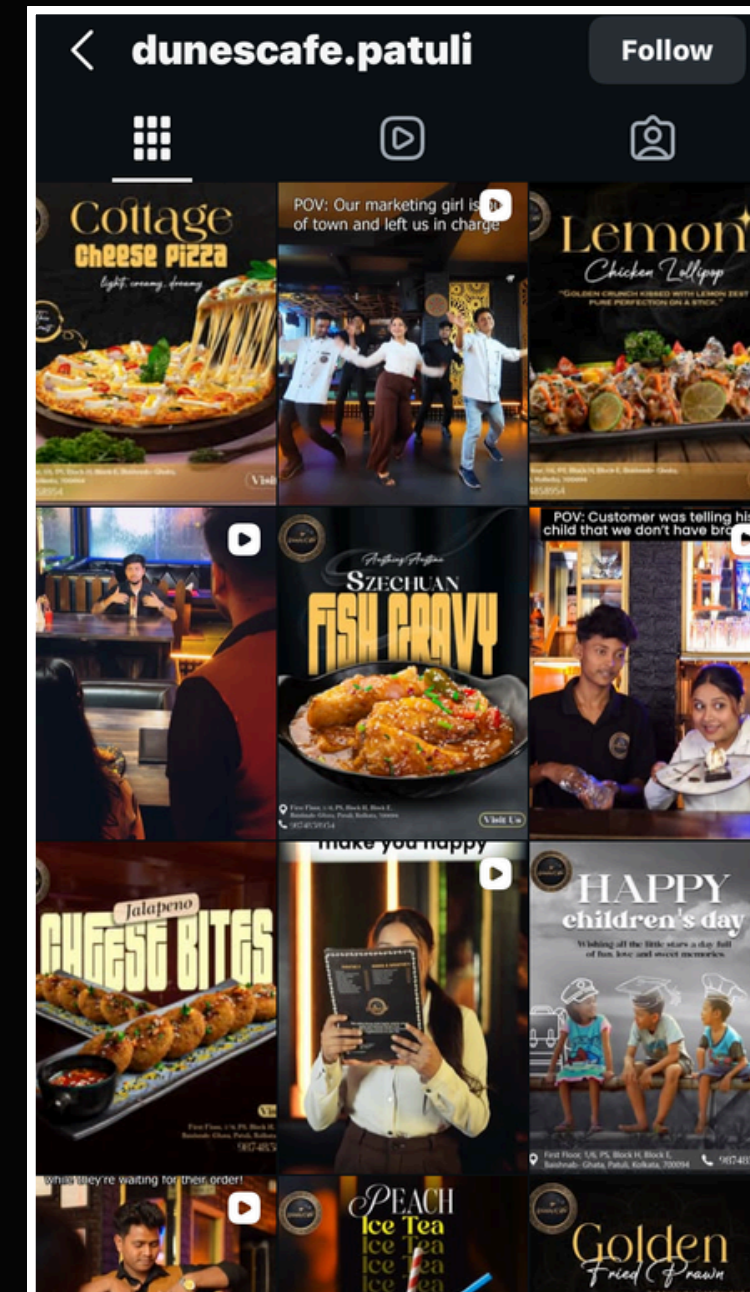

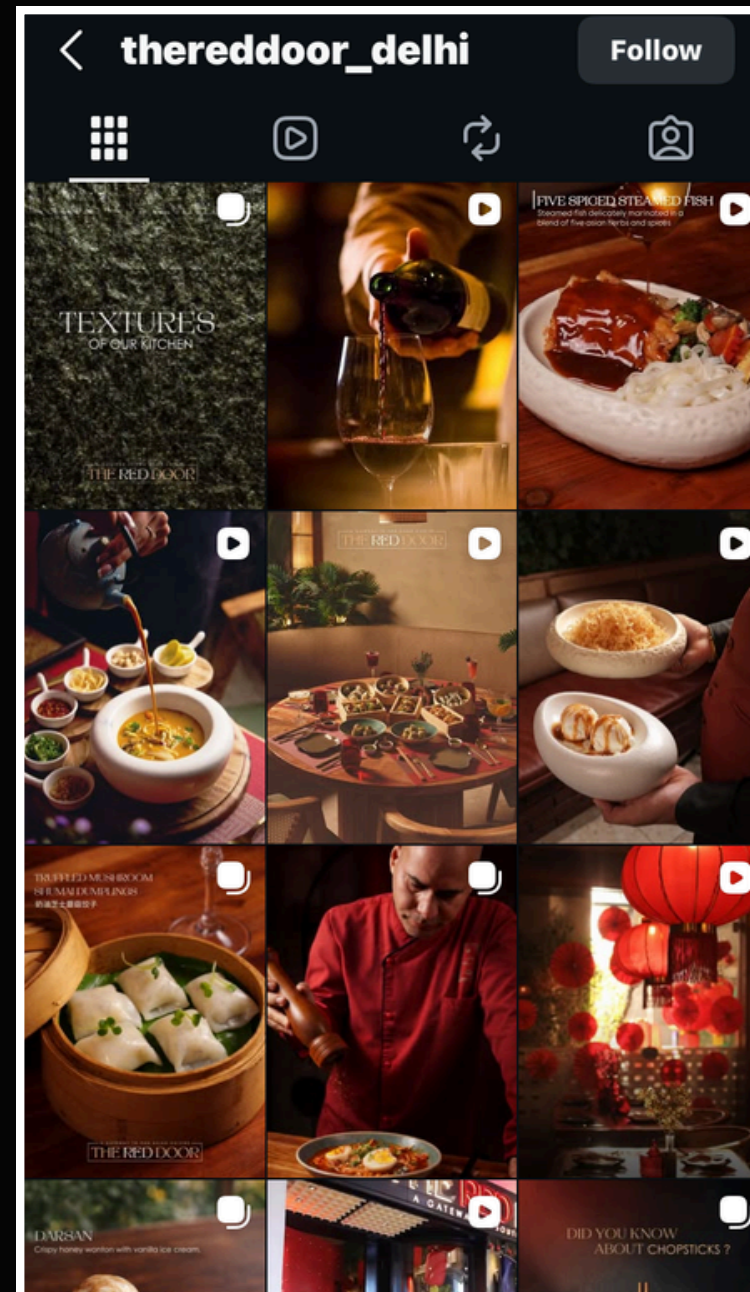

A customer win-back strategy is a targeted approach businesses use to re-engage and regain the loyalty of customers who have previously stopped or reduced their interactions with the company. It's important to note that a win-back strategy differs from a retention strategy, as it proactively engages with former customers, aiming to rekindle the connection and foster their return.

It involves identifying inactive or former customers, understanding their reasons for disengagement, and implementing tactics to reconnect with them through personalized communication.
